Staff Development Nursing Secrets is a practical guide for nurse educators working in staff development. The question and answer format helps provide readers with specific answers to their everyday questions and challenges. The text explores the state of today's healthcare world and identifies the myriad of competencies and skills necessary for a nurse educator to succeed. In addition, nurse educators will gain useful tips and knowledge regarding the planning, implementation and evaluation of many types of educational programming. The text concludes with a section on the nuts and bolts of common staff development programs. Engaging, interactive Q & A format Concise answers with valuable pearls, tips, memory aids, and "secrets" 22 succinct chapters written for quick review All the most important, "need-to-know" questions and answers in the proven format of the highly acclaimed Secret Series® Thorough, highly detailed index

Instructor CD contents include: Precourse materials -- Course materials -- Evaluation materials -- Resources.

This New American Red Cross CPR/AED for the Professional Rescuer Participant's Manual and course reflect changes based on the 2005 Consensus on Science for CPR and Emergency Cardiovascular Care (ECC) and the Guidelines 2005 for First Aid. Changes to this program and manual include simplifications to many of the CPR skill sequences, which helps improve retention. There have also been changes to help improve the quality of CPR. The integration of CPR skills into the operation of AEDs had changed to help improve survival from sudden cardiac arrest. Professional rescuers are now trained to use AEDs on adults and children. Information has been updated and added to this program to help professional rescuers administer epinephrine, aspirin and fixed-flow-rate oxygen. The skills learned in this course include adult, child and infant rescue breathing, conscious and unconscious choking, CPR, two-rescuer CPR and adult and child AED. Additional training can be added to this course including bloodborne pathogens training and emergency oxygen administration. While the skills and knowledge that professional rescuers use are increasing, this training will help you meet your most important responsibility as a professional rescuer- the responsibility to save lives.

BLS Certification Exam Q&A With Explanations will certainly help you pass any Basic Life Support Certification Course. As you look through the book, you will quickly see that this book's format is different from all other review and test preparation books. This book is specifically geared toward healthcare students and new healthcare professionals that are preparing to take the BCLS/BLS/CPR certification exam for the first time. This book will also give the seasoned healthcare professional lots of great review information as well as a way to update themselves on the latest research and guidelines. Whichever certifying agency's program you are taking, either in a classroom or on the internet, this book and its contents will help you succeed in this course. In this book we give you all the essential information that you will need to successfully pass the certification course and exam on your first attempt.
