which Sailing Magazine called "best in class" upon its release in 2010, is the most comprehensive education and boating safety learn-to-sail guide to date. It is also the official textbook for the ASA Basic Keelboat Standard (ASA 101). Incorporated in the textbook are useful illustrations and exceptional photographs of complex sailing concepts. The text's most distinguishing feature is its user friendly "spreads" in which instructional topics are self-contained on opposing pages throughout the book. There are also chapter end quizzes and a glossary to help those new to sailing to navigate their way through the extensive nautical terminology.

life navigation situations without resorting to a slide rule? You get both in *Boat Navigation for the Rest of Us*, second edition, a guide to pleasureboat navigation that shows you how to combine electronic aids like radar and GPS with visual observations, simple chartwork, and common-sense piloting. In plain, simple language, it explains how to find where you are and get where you want to go with a minimum of fuss. You'll find many little-known, low-tech methods specifically designed for use aboard small powerboats and sailboats. This edition brings you up to speed on the many changes to navigation systems and equipment that have occurred over the past six years, including dramatic improvement in GPS accuracy, the proliferation of electronic charts and plotting systems, and the growing importance of the Internet as a navigation tool.
