In the Box The Nokia N90 package includes the phone, a USB 2.0 sync cable, standard Nokia world AC charger (with the new, smaller connector), a stereo earbud headset, CD-ROM with PC Suite, manuals and ...

Data Science is booming thanks to R and Python, but Java brings the robustness, convenience, and ability to scale critical to today's data science applications. With this practical book, Java software engineers looking to add data science skills will take a logical journey through the data science pipeline. Author Michael Brzustowicz explains the basic math theory behind each step of the data science process, as well as how to apply these concepts with Java. You'll learn the critical roles that data IO, linear algebra, statistics, data operations, learning and prediction, and Hadoop MapReduce play in the process. Throughout this book, you'll find code examples you can use in your applications. Examine methods for obtaining, cleaning, and arranging data into its purest form Understand the matrix structure that your data should take Learn basic concepts for testing the origin and validity of data Transform your data into stable and usable numerical values Understand supervised and unsupervised learning algorithms, and methods for evaluating their success Get up and running with MapReduce, using customized components suitable for data science algorithms

Part of the Reading Well scheme. 35 books selected by young people and health professionals to provide 13 to 18 year olds with high-quality support, information and advice about common mental health issues and related conditions. Build positive body image with this fun and effective workbook for young people. Watch out - the Body Image Thief is about! He's the sneaky character who keeps stealing your positive body image from your Body Image Vault, leaving only negative thoughts and feelings about your body behind. But don't worry - you can banish him for good and this workbook will show you how! Using a host of activities and real-life stories, this imaginative workbook will look at what body image means, how it develops, the impact it can have and how all this applies to your own body image. Based on cognitive behavioural and mindfulness principles and techniques, it is packed with strategies that will help you change how you think and act in order to build a positive body image, protect your Body Image Vault and banish your Body Image Thief for good! Engaging, informative and easy to read, this unique workbook is suitable for young people aged 10+ to work through on their own or with the help of a parent or practitioner.

Open the book and find: Down-to-earth trip-planning advice What you shouldn't miss -and what you can skip The best hotels and restaurants for every budget Lots of detailed maps

Being a student of the Energetic Truths is one of the key principles of the livingness itself and likewise, it is an important elemental teaching as given by the living Sutras throughout this book. Through history and by example, the Hierarchy have been an unwavering torch in this regard, for - all life must be known by its ENERGETIC TRUTH so that WHOLE TRUTH can be known at any given time and moment.

Analyzes the principles of stock selection and various approaches to investing, and compares the patterns and behavior of specific securities under diverse economic conditions

From the author of *The White Bone*, a piercing novel of passionate attachment and of the fear and freedom of letting go Louise Kirk learns about love and loss at an early age. When she is nine years old, her former beauty queen mother disappears, leaving a note that reads only--and incorrectly--"Louise knows how to work the washing machine." Soon after, the Richters and their adopted son, Abel, move in across the street. Louise's immediate devotion to the exotic, motherly Mrs. Richter is quickly transferred to her nature-loving, precociously intelligent son. From this childhood friendship evolves a love that will bind Louise and Abel forever. Though Abel moves away, Louise's attachment becomes ever more fixed as she grows up. Separations are followed by reunions, but with every turn of their fractured relationship, Louise discovers that Abel cannot love her as fiercely and exclusively as she loves him. Only when she faces another great loss is Louise finally forced to confront the costs of abandoning herself to another. Skillfully interweaving the stories of Louise and Abel at different ages, Barbara Gowdy produces a powerful exploration of love's many incarnations: a motherless daughter who yearns to be adopted, a husband eternally linked to a wife who has left him, a girl bewitched by the boy next door, a woman who refuses to let go of a magnetic, elusive man. Haunting and profound, *The Romantic* is a story about love in all its exquisite variations.

Broad. Engaging. Accessible. Appealing. These are just a few of the words reviewers used to describeThe Ongoing Renewal of Catholicism. InThe Ongoing Renewal of Catholicism,Professor Brennan Hill has provided a wonderfully engaging, progressive look at Catholic theology for today. Dr. Hill's discussion introduces to readers the foundations of Catholic thought, follows the development of that thought, and looks closely at the issues of today's world and Catholicism's response. While firmly rooted in the Catholic tradition, the author takes an ecumenical approach by incorporating teachings and insights from other Christian churches and world faiths.

America is still a land of opportunities, when you have good friends and schoolmates, appreciative bosses who value your potential to contribute to their enterprise,regardless of your race,national origin or speaking English with foreign accent. But it is not inevitable that you can have a great journey in America. God luck will make it happen. This is a true story of Joe's lucky journey in America. Joe came to Seattle with a foreign student visa from Taipei in 1960. His first job in Seattle was a night shift janitor at Doctors Hospital so he might go to school during the day. Two years later his physics laboratory partner got him a job as a part time technician at Boeing Airplane Company. the Boeing experience got him a teaching assistantship in electrical engineering department of Johns Hopkins university in 1963. He finished his Ph.D. dissertation in 1968. He taught Communication Systems at University of Wisconsin-Milwaukee in 1968 -1969. Not by planning he luckily entered into American military industrial complex world beginning 1970. First Joe received his security clearance from US Department of Defense in 1970 at Page Communications Engineering company in Washington, D.C. and then the clearances from the US Navy, US Army and US Department of Energy. He was naturalized to be American citizen in July of 1970. Between 1970 and 1987 he worked hard as a system analyst, operational analyst and project director for the US Navy and the US Army, reaching the top rank of GS-18 in Senior Executive Service of the US Government. He received one Outstanding civilian Service Medal from the Department of the Army and a Distinguished Public Service Award (medal) from the Secretary of the Navy. During this period he travelled all over the world for his job, by air, by land, on water and under water of the Atlantic and Pacific oceans. In 1987 he was hired as manager of strategic planning at Westinghouse Defense Group in Baltimore and chairman of Westinghouse annual R and D symposium(1988-1995). He was also appointed President of Westinghouse Electronic Systems International Marketing Company (1988-1992). He marketed electronics system of F-16s for more than twenty F-16 user countries. Grumman purchased Westinghouse Defense Group in 1995 and made him Director of special projects pursuing business opportunities in the post Soviet market in Moscow of New Russia and Cape Town of the new Republic of South African. Joe's interest in global technology issues took him to Planetary Defense workshop in 1995 at Lawrence Livermore National Laboratory. the workshop was co-chaired by Dr. Edward Teller ( father of hydrogen bomb ) and Dr. Eugene Shoemaker (discoverer of short comet). His interest in the future of defense industries attracted him to attend in 1996, the NATO Conference on defense industry conversion strategies at Perthshire of Scotland, UK in 1996. Joe retired from Grumman on march 1, 1998. It had taken him more than fifteen years to acknowledge in this book that how lucky he had been .

In 1814, three cousins-Gretchen, Emma, and Penelope-discover their family lineage of witchcraft when a binding spell is broken, allowing their individual magical powers to manifest. Now, beyond the manicured gardens and ballrooms of Regency London, an alluring underworld available only to those with power is revealed to the cousins. By claiming their power, the three cousins have accidentally opened the gates to the underworld. Now ghouls, hellhounds-and most terrifying of all, the spirits of dark witches known as the Greymalkin Sisters-are hunting and killing young debutante witches for their powers. And, somehow, Emma is connected to the murders...because she keeps finding the bodies. Can the cousins seal the gates before another witch is killed...or even worse, before their new gifts are stripped away?
