journals of resident Kate Holland, recovered from the town's bloody wreckage, capture a tale too harrowing—and too earth-shattering in its implications—to be forgotten. In these pages, Max Brooks brings Kate's extraordinary account to light for the first time, faithfully reproducing her words alongside his own extensive investigations into the massacre and the legendary beasts behind it. Kate's is a tale of unexpected strength and resilience, of humanity's defiance in the face of a terrible predator's gaze, and, inevitably, of savagery and death. Yet it is also far more than that. Because if what Kate Holland saw in those days is real, then we must accept the impossible. We must accept that the creature known as Bigfoot walks among us—and that it is a beast of terrible strength and ferocity. Part survival narrative, part bloody horror tale, part scientific journey into the boundaries between truth and fiction, this

disasters, emerging pandemics, and the looming threat of extinction. In this book Eugene Thacker suggests that we look to the genre of horror as offering a way of thinking about the unthinkable world. To confront this idea is to confront the limit of our ability to understand the world in which we live - a central motif of the horror genre. In *The Dust of This Planet* explores these relationships between philosophy and horror. In Thacker's hands, philosophy is not academic logic-chopping; instead, it is the thought of the limit of all thought, especially as it dovetails into occultism, demonology, and mysticism. Likewise, Thacker takes horror to mean something beyond the focus on gore and scare tactics, but as the under-appreciated genre of supernatural horror in fiction, film, comics, and music.

For more than forty years, Margo Witz has been troubled by the effects of an early childhood trauma she can't remember. Despite years of therapy, she has experienced severe depression and recurrent nightmares. She knows that as an effect of the forgotten trauma, she has difficulty connecting to her own emotions and wants desperately to become normal. When her father needs emergency heart surgery, she travels to Wisconsin to be with her family despite her dread, for her depression usually deepens when she returns to her childhood home. That fact is particularly puzzling, since her energetic, boisterous family has always been loving and supportive. During hours of waiting at the hospital, Margo relives some of the unusual occurrences in her life. Why does she hear an old wooden screen door slam when no one else does? Why was she, as a child, terrified of the walls in her home?
