Now in its second edition, *The Routledge Dictionary of Cultural References in Modern French* reveals the hidden cultural dimension of contemporary French, as used in the press, going beyond the limited and purely lexical approach of traditional bilingual dictionaries. Even foreign learners of French who possess a good level of French often have difficulty in fully understanding French articles, not because of any linguistic shortcomings on their part but because of their inadequate knowledge of the cultural references. This cultural dictionary of French provides the reader with clear and concise explanations of the crucial cultural dimension behind the most frequently used words and phrases found in the contemporary French press. This vital background information, gathered here in this innovative and entertaining dictionary, will allow readers to go beyond a superficial understanding of the French press and the French language in general to see the hidden yet implied cultural significance that is so transparent to the native speaker. This fully revised second edition includes: a broad range of cultural references from the historical and literary to the popular and classical; an enhanced analysis of punning

mechanisms used in the press; over 3,000 cultural references explained with updated examples; a three-level indicator of frequency; new and expanded chapters on the French of Quebec, institutional and academic references, and English borrowings in the areas of IT and medical science; over 600 online questions to test knowledge before and after reading. The Routledge Dictionary of Cultural References in Modern French is the ideal reference for all undergraduate and postgraduate students of French seeking to enhance their understanding of the French language. It will also be of interest to teachers, translators and Francophiles alike. French students in kh â gne, Sciences-Po and schools of journalism will also find this book valuable and relevant for their studies. Test questions and solutions are available at www.routledge.com/9780367376758, in addition to three online chapters. These bonus chapters explore figurative expressions involving the names of animals, the language of the law and slang terms.

In the 1789 Declaration of the Rights of Man and of the Citizen, French revolutionaries proclaimed the freedom of speech, religion, and opinion. Censorship was abolished, and France appeared to be on a path towards tolerance, pluralism, and civil liberties. A mere four years later, the country descended into a period of political terror, as thousands were arrested, tried, and executed for crimes of expression and opinion. In *Policing Public Opinion in the French Revolution*, Charles Walton traces the origins of this reversal back to the Old Regime. He shows that while early advocates of press freedom sought to abolish pre-publication censorship, the majority still firmly believed injurious speech--or calumny--constituted a crime, even treason if it undermined the honor of sovereign authority or sacred collective values, such as religion and civic spirit. With the collapse of institutions responsible for regulating honor and morality in 1789, calumny proliferated, as did obsessions with it. Drawing on wide-ranging sources, from National Assembly debates to local police archives, Walton shows how struggles to set legal and moral limits on

free speech led to the radicalization of politics, and eventually to the brutal liquidation of "calumniators" and fanatical efforts to rebuild society's moral foundation during the Terror of 1793-1794. With its emphasis on how revolutionaries drew upon cultural and political legacies of the Old Regime, this study sheds new light on the origins of the Terror and the French Revolution, as well as the history of free expression.

This book provides a jargon-free guide to the forms and structures of French as it is spoken and written in France. It represents a combination of reference grammar and a manual of current usage.

A new trade edition of Sartre's magnum opus. First published in 1943, this masterpiece defines the modern condition and still holds relevance for today's readers.

It is a close study of four novels by Boris Vian. It aims to show how *L'Ecume des jours*, *L'Automne a Pekin*, *L'Herbe rouge* and *L'Arrache-coeur* form a unified and coherent tetralogy. By establishing close links between these four texts, it becomes possible to achieve a more comprehensive understanding, not only of the significance of the tetralogy in exposing a complex and multi-layered novelistic strategy at the heart of the vianesque, but of the individual novels as autonomous creations. An examination of the novels reveals that they are not merely joined to one another via a superficial network of textual similarities (that which I refer to as intratextuality), but that this intertwining is emblematic of a common method of narrative construction. Each Vian novel is dependent, for a thorough understanding of the

text to be possible, upon the multiple lines of external influence running through it. The sources of this influence (which I refer to as intertextuality) are located in various major texts of twentieth century literature, anglophone as well as francophone. Thus, in each instance the narrative is driven by a complicated interaction of intratextuality and intertextuality."

On the 24th of February, 1815, the look-out at Notre-Dame de la Garde signalled the three-master, the Pharaon from Smyrna, Trieste, and Naples. As usual, a pilot put off immediately, and rounding the Chateau d'If, got on board the vessel between Cape Morgion and Rion island. Immediately, and according to custom, the ramparts of Fort Saint-Jean were covered with spectators; it is always an event at Marseilles for a ship to come into port, especially when this ship, like the Pharaon, has been built, rigged, and laden at the old Phocce docks, and belongs to an owner of the city. The ship drew on and had safely passed the strait, which some volcanic shock has made between the Calasareigne and Jaros islands; had doubled Pomegue, and approached the harbor under topsails, jib, and spanker, but so slowly and sedately that the idlers, with that instinct which is the forerunner of evil, asked one another what misfortune could have happened on board. However, those experienced in navigation saw plainly that if any accident had occurred, it was not to the vessel herself, for she bore down with all the evidence of being skilfully handled, the anchor a-cockbill, the jib-boom guys already eased off, and standing by the side of the pilot, who was steering the Pharaon towards the narrow entrance of the inner port, was a young man, who, with activity and vigilant eye, watched every motion of the ship, and repeated each direction of the pilot. The vague disquietude which prevailed among the spectators had so much affected one of the crowd that he did not await the arrival of the vessel in harbor, but jumping into a small skiff, desired to be pulled alongside the Pharaon, which he reached as she rounded into La Reserve basin. When the young man on board saw this person approach, he left his station by the pilot, and, hat in hand, leaned over the ship's bulwarks. He was a fine, tall, slim young fellow of eighteen or twenty, with black eyes, and hair as dark as a raven's wing; and his whole appearance bespoke that calmness and resolution peculiar to men accustomed from their cradle to contend with danger.
