The long tradition of DEUTZ-FAHR is closely associated with one particular name. Nicolaus August Otto founded the Motorenfabrik N.A. Otto & Cie., later to become Klöckner-Humboldt-Deutz AG (KHD), in Cologne in 1864, and shortly afterwards he invented the first four-stroke combustion engine.

Deutz rebranded the Allis tractors as Deutz-Allis and began importing Deutz-Fahr tractors under the Deutz-Allis name. The switch to green, from the traditional Allis orange, was a disappointment for loyal Allis-Chalmers farmers.

Brian “ Bad ” Phelan, New Zealander and bomb-disposal expert, likes to live dangerously. While on vacation on the French – Italian border, he helps bring a body out of a rocky, wave-swept cove. The dead woman bears striking similarities to a young woman he met years ago, under mysterious circumstances, shortly before she disappeared in a flooded French cave and Bad is compelled to investigate. Meanwhile,

Jesuit Father Daniel Octave is running his own investigation into the truth behind the story of the life of the Blessed Martine Raimondi, a WWII resistance heroine and martyred nun. Bad and Daniel ' s questions lead them to Eve, the beautiful widow of a celebrated French artist, and to Dawn, Eve ' s twin sister, who seems to be a vampire. For, though they don ' t know it, Bad and Daniel are looking for the same thing: a secret family. Sensuous and heavenly, Daylight combines wildly imaginative storytelling and a clear eye for atmosphere and place. Set on the beautiful Mediterranean coast stretching from Avignon to Genoa, much of the novel takes place in a world the tourist never sees, a world of caves and secret passages. It is in this " world beneath the world " that Bad Phelan and Daniel Octave finds themselves face to face with history and myth, with phantoms whose hearts are still beating, hungry, and able to break.

With an Edwardian twist on *The Tempest*, and surprising, earthy, and magical qualities, this irresistible novel is set on the remote, divided Scottish island of Kissack and Skilling, one half of which looks historically and geographically towards Catholic Ireland, the other toward the Protestant north and Scandinavia. In the spring of 1903 a ship explodes as it docks on the island, drowning many of the passengers and crew in the icy waters of Stolnsay harbor. Young, strawberry-blonde-haired Billie Paxton is among the only survivors. Clumsy, illiterate, and suddenly alone, Billie will not say why, before the explosion, she jumped from ship to shore, and so falls under the immediate suspicion of her fellow passenger, Murdo Hesketh, and his cousin and employer, Lord Hallowhulme, who owns the island—and has controversial plans for improving the lives of its inhabitants. Gloriously inventive and vividly atmospheric, Billie ' s Kiss conjures up a way of life hurtling toward a brave new world in an enchanting novel that brings together murder and eugenics,

progress, prejudice, and the loss of innocence.

While attempting to get passage into the Place as a qualified Dreamhunter, Laura uncovers corruption at the heart of the government ruling this magical land and fears that her knowledge of this secret may be the reason why her father has suddenly gone missing. 25,000 first printing.

One sunny spring morning the Tasman Bay settlement of Kahukura is overwhelmed by a mysterious mass insanity. A handful of survivors find themselves cut off from the world, and surrounded by the dead. As they try to take care of one another, and survive in ever more difficult circumstances, it becomes apparent that this isn't the first time that this has happened, and that they aren't all survivors and victims—two of them are something quite other. And, it seems, they are trapped with something. Something unseen is picking at the loose threads of their characters, corrupting, provoking, and haunting them. Wake is a novel about what it really means to try to do one's best, about the choices and sacrifices people face in order to keep a promise like "I will take care of you." It is a novel that asks: What are the last things left when the worst has happened? and about extreme events, ordinary people, heroic compassion—and invisible monsters. An invisible monster is what one can't see coming; with an invisible monster one never knows when they're in danger and when they're safe—if they retreat to their fortress they can't be sure they haven't locked it in with them.
