the course -- including intimate relationships, family policy, and family issues. Striking a balance between an academic and more functional approach, the authors draw from research to present a sound sociological and family studies base enhanced by perspectives from anthropology, history, psychology,

Journalism, literature, economics, and gender studies. The book explores recent research on topics such as adoptive parenting, the transgender experience, childbearing patterns, gay and lesbian families, communication and conflict resolution, the influence of popular culture, and working families. Real-life

Family scholars and students around the world. This volume provides a diverse, eclectic, and paradoxically mature approach to theorizing and demonstrates how the development of theory is crucial to the future of family research. The Sourcebook reflects an interactive approach that focuses on the process of
