This is a perspective on the chemical world we live in and why I believe all of us should be concerned for our lives, the lives of our families, friends and the animals that share our lives. It is not intended to scare you, although it might. It is really to draw attention to what our lives have become and the chemicals, companies and products that rule it. Our skin is our largest and most vulnerable organ. Love it and it will love you. Protect it and it will protect you.

Abuse it and it will shorten your life. There have been more chemicals developed in the last twenty years than in all of mankind. Of the thousands of chemicals in use in the cosmetic, personal care and household products industry, less than 1% have been tested for safety. A few years ago I read that ~63% of Americans claim to have a skin disorder. Connection? Probably! There are no US Government regulations for skin care or household products. What I have come to believe is that more than 50% of skin disorders are misdiagnosed and are caused by chemicals in the products we use every day.

Sam Whitehead was raised in a strict religious family and was a teenage preacher. At age twenty-two he began a forty-year quest

of research and reflection to prove that his faith was the one "true" religion and that God was real. He reluctantly came to the conclusion that there is no God and that no religion is true. Staunch believers in God and readers who are trying to find their own truth will find Sam's journey compelling. It moves from Alabama to Ohio and back to the Deep South in Atlanta. This serious work challenges believers to live up to their creed and reflects the humor in many situations along the way. Sam holds an MBA degree from Georgia State University with a major in finance. He retired from a lengthy
