In this volume these magical and religious practices are explored, from both a historical and practical perspective. The practices are explored from an ancient Egyptian worldview, taking into consideration that the Egyptian culture spread over a period of more than 3000 years. Riggs explores how the Egyptians thought about magic, who performed it and why, and also helps readers understand why we've come to think of ancient Egypt in such a mystical way. Readers will learn how to cure scorpion bites, discover why you might want to break the legs off your stuffed hippopotamus toy, and uncover whether mummies really can come back to life. Readers can also learn how to save a fortune on pregnancy tests—urinating on barley grains will answer that question— as well as how to use the next street parade to predict the future or ensure that an annoying neighbor gets his comeuppance. Was magic harmless fun, heartfelt hope, or something darker? Featuring demons, dream interpreters, the Book of the Dead, and illustrations from tomb paintings and papyrus scrolls, Riggs

The scribes of ancient Egypt devoted their lives to the writing of sacred stories. These technicians of the sacred were masters of hieroglyphic thinking, or heka--the proper words, in the proper sequence, with the proper intonation and the proper intent.

Learning heka provided scribes with the power to invoke and create worlds through their words and thoughts. To the writer, heka is a magical way to create meaning from experience.

Through heka we manifest new visions and new relationships to ourselves and to others. We can make new art filled with beauty and light.
