Most overviews of Hindu belief and practice follow a history from the ancient Vedas to today. Such approaches privilege Brahmanical traditions and create a sense of Hinduism as a homogenous system and culture, and one which is largely unchanging and based solely on sacred texts. In reality, modern Hindu faith and culture present an extraordinary range of dynamic beliefs and practices. 'Contemporary Hinduism' aims to capture the full breadth of the Hindu worldview as practised today, both in the sub-continent and the diaspora. Global and regional faith, ritualised and everyday practice, Brahmanical and non-Brahmanical belief, and ascetic and devotional traditions are all discussed. Throughout, the discussion is illustrated with detailed case material and images, whilst key terms are highlighted and explained in a glossary. 'Contemporary Hinduism' presents students with a lively and engaging survey of Hinduism, offering an introduction to the oldest and one of the most complex of world religions.

Learn the Basics about Hindu Beliefs, Gods and RitualsThis book contains an easily accessible overview of the Hindu religion, with a focus on those coming from the Western religions and cultures. While quite a few of us in the west are familiar with at least some aspects of the religion (karma for instance), most of us lack any real depth of understanding of the complexities and nuances of one of the world's oldest and most diverse religions. I hope that by reading this book you can at least begin to scratch the surface of this rich and intricate religion. We will cover the basics of the belief system, including the concepts of karma, reincarnation, ahimsa, and the one Supreme Being. These concepts unite all the various sects of the Hindu religion, as well as all of the regional and familial variations in what is a rich and complex religion. The pantheon of the gods is described, with an emphasis on each god's function. The rich symbolism present in their depictions is also explored, for a small sampling of the main deities. A full treatment of the symbolism is a subject worthy of a full semester college course.Not only is Hinduism rich in its diversity of gods and goddesses, it is also filled with many different rituals and festivals. Some of the most important rituals that punctuate the life of a Hindu are described. Rituals that are performed for pregnancy, birth, and death are common. Like we are accustomed to in the west, the Hindu religion also celebrates many holidays. I describe some of the most popular.Finally, I give a brief overview of what can only be considered one of the largest collections of religious scriptures in the world. Religion is not a popular target for economic analysis. Yet the economist's tools offer insights into how religious groups compete, deliver social services, and reach out to converts—how religions nurture and deploy market power. Sriaa Iyer puts these tools to use in an expansive study of India, one of the world's most religiously diverse nations.

Seminar paper from the year 2009 in the subject English Language and Literature Studies - Literature, grade: 1,3, Ernst Moritz Arndt University of Greifswald (Institut für Anglistik und Amerikanistik), course: India from within and without: Rudyard Kipling's Kim & E.M. Forster's A Passage to India, language: English, abstract: To be concerned with Hinduism means to immerse oneself in a world which seems to be so different from our Western world. The question is why one has this feeling? Is it just because we combine Hinduism with the Indian subcontinent and hence a spot on earth which is so far away from us? Is the great distance the reason why Hinduism feels so exotic? Or is it rather the way Hinduism appears in comparison with other world religions? Is the religious praxis the reason for perceiving Hinduism as far out? Or is it simply the Hindu way of life which seems to be so unfamiliar? Is it the Hindu society which is so different from other ones? All these questions can be answered in several different ways. They are dependent from the perspective one looks at them and which of the themes mentioned above is going to be examined more intensively. The specific aim of this paper is to depict important aspects of Hindu religiousness and society in the same breath. There is no focus of either religion or society. These two aspects should rather be combined. This means that the paper wants to depict specific facets of Hindu belief and simultaneously raise the question what this means for the concrete life of Hindu people. If the effects of religious convictions on human life and society are examined, it will become possible to draw comparisons to our Western way of thinking. Under no circumstances will be made comparison between Christianity and Hinduism or even a two-sided social criticism. It is rather important to illustrate the different ways of thinking to show why Hinduism is so fascinating for Western Europeans and why certain convictions would not work in our society...
