The National Assessment of Educational Progress (NAEP), known as the nation's report card, has chronicled students' academic achievement in America for over a quarter of a century. It has been a valued source of information about students' performance, providing the best available trend data on the academic achievement of elementary, middle, and secondary school students in key subject areas. NAEP's prominence and the important need for stable and accurate measures of academic achievement call for evaluation of the program and an analysis of the extent to which its results are reasonable, valid, and informative to the public. This volume of papers considers the use and application of NAEP. It provides technical background to the recently published book, *Grading the Nation's Report Card: Evaluating NAEP and Transforming the Assessment of Educational Progress* (NRC, 1999), with papers on four key topics: NAEP's assessment development, content validity, design and use, and more broadly, the design of education indicator systems.

Includes Sample Letters, Real World Examples, Style Tips, New Chapters on E-mail, Websites, Social Media, and More... Now in a completely revised third edition, this classic book shows how to create winning appeals that will realize the full potential of direct mail and online fundraising. Written by fundraising guru Mal Warwick, with assistance from Eric Overman, this comprehensive resource gives nonprofit fundraising staff the information needed to write compelling fundraising appeals for any medium. If you follow Warwick's guidelines, your direct mail and online fundraising campaigns will produce better results, year after year. Written in an easy-to-read style, the book is filled with practical techniques, proven approaches, and illustrative examples of both successful and unsuccessful appeals based on the authors' wealth of experience fundraising for hundreds of nonprofits. Step-by-step and appeal by appeal, the book shows how to navigate the fundraising appeal process with ease. To meet the demands of today's socially connected donors, this new edition explains how to mesh today's online technologies with direct mail to produce optimal fundraising results. You'll learn how to use e-mail, websites, Facebook, Twitter, and mobile technology to recruit more donors and raise more money. The book includes current research on timely topics such as online vs. offline behavior, online giving statistics, demographics, and best practices in integrated fundraising. If you're a nonprofit professional eager to master the latest methods in fundraising, or simply need to write direct mail appeals for your

organization, How to Write Successful Fundraising Appeals will help you hone your skills and create appeals that will hit the mark every time.

'The global oil industry is an exceptionally complex one, and its importance to governments, business and society as a whole is immense...The New Economy of Oil aims to set out the challenges and choices ahead, and it makes a fascinating read.' Business News 'John Mitchell, in this excellent book, is looking at the new elements which may influence, or indeed determine, the shape of the oil industry, the behaviour of the main actors, the forces of supply and demand, and the price path.' From the Foreword by Robert Mabro, Director, Oxford Institute for Energy Studies 'The New Economy of Oil is a superior, state-of-the-art tour of a conventional scenario about the near future of the world's oil and oil economy and polity.' Society and Natural Resources In a world where international accountability is increasingly important, the oil industry faces an unprecedented series of challenges. Mitchell's main theme is that the acceptability of oil is becoming more important than its availability. The implications are enormous, given the huge current dependence on oil of so much industry and government revenue. This book is of importance to all those involved with oil - from industry professionals to competitors, commentators, investors, managers, politicians and regulators.
