This is a religious and non-denominational book. Bible answers are messages that God send to the whole world, inspired from the Holy Spirit about prophecies for the end of times that God has asked Daniel to keep sealed and secret Da.12:4,9,10. In Matthew13:14-15 Jesus quoted what the prophet Isaiah said in Is.29:9-14. The book answers questions solely on God's written words by His Supreme Authority held in

the Bible. People of all creeds in search of answers will benefit from it because these are questions that all of us face, and they will be revealed by casting aside superficial beliefs. Combines through research and analysis of biblical verses to paramount questions that everyone must ask. like 1. concerning the rapture, people give their own opinion about it, which God forbids Jer.23:28-31; Is.55:8,9: for God's way is not our way, His thought is not our thought. and Jesus Rev.22:18,19. by saying that they will go to heaven which is not in the Bible. 2. Did God promise to His people to send them to heaven? 3. Who is the Bride of the Lamb? 4. Where will be the place that Jesus promises? 5. Where was Satan before his fall? 6. Are there any differences between Satan's plan Is.14:13,14 and those who expect to go to heaven? 7. The reign of Christ on earth. Because God forbids people to use their own speech and say God says, is the reason why, I do not give my own opinion in this book. I am not a writer, I just deliver the message that God inspired me through the Holy Spirit, which is good news that will give peace of mind and insurance of everlasting life to everyone, no matter your religion, for we're all expected to die and face Jesus in the judgment day.

The Ethiopic version provides a window into the state of the Greek Bible as it circulated in East Africa at the end of the fourth century. It is, therefore, an extremely important witness to the Bible's early transmission history, yet its testimony has typically been ignored or misunderstood by text critics. This study examines the history of the book of Acts in Ethiopia and reconstructs its earliest attainable text, which then is assessed using the latest text-critical methods. It therefore provides a solid base for interpreting the data of this key witness and lays the groundwork for future text-critical work in Ethiopic and other early versions.
