How to Introduce Yourself in Japanese! Jikoshoukai (自己紹介) The Japanese later began to twist the Chinese language by changing the word order and inserting some particles to make the sentences ‘ more Japanese ’. To read Chinese in the Japanese way may sound like a crazy idea, but this phenomenon still exists in modern Japan ‘ s high school curriculum.

A brief introduction to the Japanese Language These characters represent every sound of the Japanese language, are syllabic with the basic vowels a, i, u, e, o except for the character that stands for ‘n’. Some of the characters look similar, especially to the foreign eye, with just a difference of a line or a curve (i.e. the characters さ-sa and き-ki, は-ha and ほ-ho, む-nu and め-me).

Learning Hiragana and Katakana is a systematic and comprehensive Japanese workbook that is perfect for self study or in a classroom setting. Written Japanese combines three different types of characters: the Chinese characters known as kanji, and two Japanese sets of phonetic letters, hiragana and katakana, known collectively as kana, that must be mastered before the Japanese kanji can be learned. Learning Japanese Hiragana and Katakana provides beginning-level students of Japanese a thorough grounding in the basic hiragana and katakana phonetic symbols or syllabaries. A comprehensive introduction presents their basic function, origin, pronunciation and usage. The main body of the book is devoted to presenting the 92 hira and kata characters along with their variations, giving step-by-step guidelines on how to write each character neatly in the correct stroke order, with plentiful practice spaces provided for handwriting practice. This Japanese workbook includes: Systematic and comprehensive coverage of the two Japanese kana systems. Ample provision for Japanese kana practice, review, and self-testing at several levels Detailed reference section explaining the origin and function of kana, and the various kana combinations. Access to online Japanese audio files to aid in correct pronunciation. Helpful additional information for language students accustomed to romanized Japanese. Vocabulary selected for usefulness and cultural relevance. About this new edition: The new third edition has been expanded and revised to include many additional reading and writing exercises. Accompanying online recordings demonstrate the correct pronunciation of all the characters, vocabulary, and sentences in the book.

Language is recognized as an instrument of communication and thought. Under the shadow of prevailing investigation of language as a communicative means, its function as a tool for thinking has long been neglected in empirical research, vis-a-vis philosophical discussions. Language manifests itself differently when there is no interlocutor to communicate and interact. How is it similar and how does it differ in these two situations communication and thought? "Soliloquy in Japanese and English" analyzes experimentally-obtained soliloquy data in Japanese and in English and explores the potential utility of such data for delving into this uncharted territory. It deals with five topics in which elimination from discourse of an addressee is particularly relevant and significant. Four are derived from Japanese: the sentence-final particles "ne" and "yo," deixis and anaphora, gendered speech, linguistic politeness; the fifth topic is the use of the second person pronoun "you" in soliloquy in English."

With respect to the rich and long history of Japanese linguistics, this text is intended to make a modest contribution, intending to provide a useful outline, especially for those who are not familiar with the language.

For English-speaking students of Japanese, particles are perhaps the most difficult aspect of the language to learn. It would be no exaggeration to say that, for most people, they can never be completely mastered. Thus, the study of particles is a lifetime undertaking, and students need a lifelong companion to help them along the way. That companion is A Dictionary of Japanese Particles. Covering over 100 particles in alphabetical order, the dictionary explains the meanings of each (most have more than one) and gives sample sentences for each meaning. Illustrations are provided where necessary for clarification. There are also exercises at the back of the book for those who wish to test their knowledge of particle usage. Appendices and endpaper charts are provided for easy access. A Dictionary of Japanese Particles is an essential reference work, meant to be used over the years as students continue to confront puzzling particles.

The Complete Japanese Verb Guide is a handy, easy-to-use guide to one of the building blocks of language learning—verbs. To effectively learn Japanese, a strong knowledge of Japanese grammar and vocabulary is needed. This book will come to the rescue as it shows learners how to conjugate the 600 most common Japanese verbs quickly, and with very little effort. This is the only guide to list all verb forms in both Japanese script and romanized form, while giving an accurate English translation for each conjugated form, making this book far more comprehensive than any other book on the subject. Compiled by Japanese language experts at The Hiro Japanese Center, more than 30 different verbal forms are given for each verb including all forms used in contemporary spoken, written, formal and conversational Japanese—making this the ideal reference when reading any sort of Japanese printed materials including manga, newspapers, magazines and books. The Complete Japanese Verb Guide places an expert resource at your fingertips, giving you the information you need to speak, read, and write Japanese sentences correctly. Key features of this book are: Includes all the most useful verbs and Kanji (logographic Chinese characters) in Japanese, including less common ones. A wealth of example sentences are given to demonstrate correct verb usage. Over 30 forms are given for each verb including polite or formal, plain, negative, potential, conditional, passive, causative, and many more. Both Kana, Japanese script, and romanized forms are given for each entry. An ideal study guide for the standard Advanced Placement college test and the Japanese Language Proficiency Exam. Special sections are devoted to compound verbs and suru verbs such as Kaimono suru (to shop), benkyo suru (to study), and much more.

A fun and helpful resource for anyone interested in learning some Japanese—whether you're 5 or 100! This picture dictionary covers the 1,500 most useful Japanese words and phrases. Each word and sentence is given in Japanese script—with a Romanized version to help you pronounce it correctly—along with the English meaning. The words are grouped into 40 different themes or topics, including basics like meeting someone new and using public transportation to culture-specific topics like celebrating Japanese holidays and eating Japanese food. This colorful picture dictionary includes: Hundreds of color photographs 1,500 Japanese words and phrases 40 different topics—from social media and WiFi to paying and counting Example sentences showing how the words are used Companion online audio recordings by native Japanese speakers of all the vocabulary and sentences An introduction to Japanese pronunciation and grammar An index to allow you to quickly look up words Japanese Picture Dictionary makes language learning more fun than traditional phrasebooks. This resource is perfect for beginners of all ages—curious kids, visual learners and future travelers to Japan.

Updated to include the 196 new kanji approved by the Japanese government in 2010 as “ general-use ” kanji, the sixth edition of this popular text aims to provide students with a simple method for correlating the writing and the meaning of Japanese characters in such a way as to make them both easy to remember. It is intended not only for the beginner, but also for the more advanced student looking for some relief from the constant frustration of forgetting how to write the kanji, or for a way to systematize what he or she already knows. The author begins with writing the kanji because—contrary to first impressions—it is in fact simpler than learning how to pronounce them. By ordering the kanji according to their component parts or “ primitive elements, ” and then assigning each of these parts a distinct meaning with its own distinct image, the student is led to harness the powers of “ imaginative memory ” to learn the various combinations that make up the kanji. In addition, each kanji is given its own key word to represent the meaning, or one of the principal meanings, of that character. These key words provide the setting for a particular kanji ' s “ story, ” whose protagonists are the primitive elements. In this way, one is able to complete in a few short months a task that would otherwise take years. Armed with the same skills as Chinese or Korean students, who know the meaning and writing of the kanji but not their Japanese pronunciations, one is then in a much better position to learn the readings (which are treated in a separate volume). Remembering the Kanji has helped tens of thousands of students advance towards literacy at their own pace, and to acquire a facility that traditional methods have long since given up on as all but impossible for those not raised with the kanji from childhood.

This is an invaluable study guide and practice book for learning basic Japanese kanji. Learning Japanese Kanji Practice Book is intended for beginning students or experienced speakers who need to practice their written Japanese. Kanji are an essential part of the Japanese language and together with kana (hiragana and katakana) comprise written Japanese. This book presents the kanji characters that are most commonly used. All the kanji and related vocabulary words in this book are those that students are expected to know for Level 4 of the Japanese Language Proficiency Test (JLPT). Characters that appear in the AP Japanese Language and Culture Exam are flagged. Readings, meanings, and common compounds are presented. The correct method of writing each character is clearly indicated, and practice boxes with strokes that can be traced are provided, along with empty boxes for freehand writing practice. Lots of exercises are included to give students the opportunity to practice writing sentences containing the kanji. Indexes at the back allow you to look up the characters by their readings and English meanings. This kanji book includes: Step-by-step stroke order diagrams for each character. Special boxes with grid lines to practice writing characters. Words and phrases using each kanji. Romanizations (romaji) to help identify and pronounce every word.
