Krause Publications' Standard Catalog series is available by specific marque, in individual volumes or a set. Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The l-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flamming values each model according to the popular 1-6 grading system invented by Old Cars magazine.

Long-time Pontiac expert and magazine writer Rocky Rotella guides the reader through the entire rebuild process. Drawing on his vast experience, Rotella uses detailed captions and explanatory photos to show each crucial step of the disassembly, inspection, machine work, parts selection, assembly, and break-in process. The book instructs the reader how to skillfully pull the engine and prevent damage to the car. It documents how to carefully inspect the components for problems and fix these issues that could spell doom for a newly rebuilt engine. Finding a reputable and professional machine shop that specializes in Pontiac engines is discussed, as well as aftermarket parts and OEM parts interchange for high-performance, so you can select the best parts for a particular engine. All essential machine shop procedures are covered in detail. Inspection and pre-assembly are thoroughly explained.
