JavaScript is one of the easiest, most straightforward ways to enhance a website with interactivity. Sams Teach Yourself JavaScript in 24 Hours, 4th Edition serves as an easy-to-understand tutorial on both scripting basics and JavaScript itself. The book is written in a clear and personable style with an extensive use of practical, complete examples. It also includes material on the latest developments in JavaScript and web scripting. You will learn how to use JavaScript to enhance web pages with interactive forms, objects, and cookies, as well as how to use JavaScript to work with games, animation, and multimedia.

"JAVASCRIPT in 8 Hours" is a useful book for beginners. You can learn complete primary knowledge of JavaScript fast and easily. The straightforward definitions, the plain and simple examples, the elaborate explanations and the neat and beautiful layout feature this helpful and educative book. You will be impressed by the new distinctive composing style. Reading this book is a great enjoyment! You can master all essential JavaScript skill quickly.

"javascript books for beginners" is a beneficial e book for beginners. You can study entire predominant information of JavaScript quickly and easily. The simple definitions, the undeniable and easy examples, the intricate explanations and the neat and stunning graph function this beneficial and educative book. You will be impressed by way of the new specific composing style. Reading this e book is a tremendous enjoyment! You can grasp all crucial JavaScript ability quickly.

Write Windows 8 Metro apps capable of running on one billion devices -- and do it with familiar HTML5 and JavaScript technologies! Sams Teach Yourself Windows 8 Metro Apps with JavaScript and HTML5 in 24 Hours is the fastest way for web and Windows developers to profit from the massive new Windows 8/Metro opportunity. Microsoft MVP Chad Carter teaches every facet of HTML5/Javascript Metro development simply and clearly, through 24 concise, hands-on lessons focused on knowledge you can apply immediately. Each lesson builds on what's come before, helping you get practical results fast! You'll learn how HTML5, JavaScript, and CSS3 fit into Metro development... how to quickly master Metro design and start using Microsoft's powerful Metro templates... what you need to know about WinRT and WinJS... how to build high-performance Metro apps... how to handle tablet and smartphone form factors, touch, and sensors... how to bind data to apps, and store it locally or remotely... how to manage app lifecycle events... how to make the most of Metro's innovative UI features... and much more. Carter walks you through constructing apps and games from start to finish, and even shows how to get them certified for sale at the Windows Store. Step-by-step instructions walk readers through key tasks... Q-and-As, Quizzes, and Exercises test their knowledge... "Did You Know?" tips offer insider advice... "Watch Out!" alerts help them avoid problems. By the time they're finished, readers will be comfortable with every phase of Windows 8 Metro development -- from planning apps through earning revenue!

JavaScript is an essential language for creating modern, interactive websites, but its complex rules challenge even the most experienced web designers. With JavaScript: The Missing Manual, you'll quickly learn how to use JavaScript in sophisticated ways -- without pain or frustration -- even if you have little or no programming experience. JavaScript expert David McFarland first teaches you the basics by having you build a simple program. Then you'll learn how to work with jQuery, a popular library of pre-built JavaScript components that's free and easy to use. With jQuery, you can quickly build modern, interactive web pages -- without having to script everything from scratch! Learn how to add scripts to a web page, store and manipulate information, communicate with the browser window, respond to events like mouse clicks and form submissions, and identify and modify HTML. Get real-world examples of JavaScript in action. Learn to build pop-up navigation bars, enhance HTML tables, create an interactive photo gallery, and make web forms more usable. Create interesting user interfaces with tabbed panels, accordion panels, and pop-up dialog boxes. Learn to avoid the ten most common errors new programmers make, and how to find and fix bugs. Use JavaScript with Ajax to communicate with a server so that your web pages can receive information without having to reload.
