This book supports students preparing for the Edexcel GCSE exam. The practice papers in the book are carefully modelled after past papers and specifications of exam board to ensure that the papers as a whole provide a rich and varied practice to meet all requirements of GCSE mathematics with an appropriate difficulty. Papers are designed to teach students the most easily applicable, reusable and fastest solutions to typical problems, and utilise problems which target areas of maths which students typically forget under the pressure of an exam. Solutions provided have been reviewed by many students to ensure that they are easily understandable while being the fastest and most re-applicable.

Planned, developed and written by practising classroom teachers with a wide variety of experience in schools, this maths course has been designed to be enjoyable and motivating for

pupils and teachers. The course is open and accessible to pupils of all abilities and backgrounds, and is differentiated to provide material which is appropriate for all pupils. It provides spiral coverage of the curriculum which involves regular revisiting of key concepts to promote familiarity through practice. This book, designed for the higher level of the GCSE, adheres to the Edexcel specification.

This book supports students preparing for the Edexcel International GCSE exam. It comprises of 4 full practice papers. Each practice paper contains 25 questions and detailed solutions. The practice papers in the book are carefully modelled after past papers and specifications of exam board to ensure that the papers as a whole provide a rich and varied practice to meet all requirements of IGCSE mathematics with an appropriate difficulty. Solutions are easy and comprehensible by people of all skill levels. They offer students ways of dealing with common problems but also more complex questions that students may struggle with under examination pressure. The solutions have been reviewed by many students of varying skill, to ensure that they are easily understandable while being the fastest and most re-applicable.

Test questions are provided for each chapter of this textbook, together with detailed mark schemes to make assessment easy. Two versions of each question are provided. One allows pupils to write their answers in the spaces provided and the other requires pupils to have separate writing paper. Questions can be grouped according to needs. Master grids are provided to cut and paste tests together in a consistent format to use the resource in any order. Chapter tests can be grouped to form a module test after chapters. End-of-chapter examinations can also be produced in this way. A free non-calculator supplement organized by unit/chapter is also included in this resource.

A complete course for GCSE, this text contains clear explanations of key ideas, graded exercises, worked examples, past paper questions and practice exam papers. Answers are also included. The Higher course is targeted towards higher ability students.
