A first of its kind, this book-of, by, and for the noncommissioned officer and petty officer-is a comprehensive explanation of the enlisted leader across the U.S. Armed Services. It complements The Armed Forces Officer, the latest edition of which was published by NDU Press in 2007, as well as the Services' NCO/PO manuals and handbooks. Written by a team of Active, Reserve, and retired senior enlisted leaders from all Service branches, this book defines and describes how NCOs/POs fit into an organization, centers them in the Profession of Arms, explains their dual roles of complementing the officer and enabling the force, and exposes their international engagement. As Chairman of the Joint Chiefs of Staff General Martin E. Dempsey writes in his foreword to the book, "We know noncommissioned officers and petty officers to have exceptional competence, professional character, and soldierly grit-they are exemplars of our Profession of Arms."Aspirational and fulfilling, this book helps prepare young men and women who strive to become NCOs/POs, re-inspires serving enlisted leaders, and stimulates reflection by those who have retired from or left active service. It also gives those who have never worn the uniform a better understanding of who these exceptional men and women are, and why they are properly known as the "Backbone of the Armed Forces."

This work is a collection of observations, insights, and advice from over 50 serving and retired Senior Non-Commissioned Officers. These experienced Army leaders have provided for the reader, outstanding mentorship on leadership skills, tasks, and responsibilities relevant to our Army today. There is much wisdom and advice "from one leader to another" in the following pages.

- Information about all the regulations NCOs need to be aware of in carrying out their jobs
- References to Army publications are completely converted to the new numbering system Retired Command Sergeant Major Robert S. Rush's guide for the U.S. Army noncommissioned officer is updated and revised for 2010. Updates in the ninth edition include a revised section on leadership, new information about continuing education and training available to NCOs, and updated references to Army publications following the new system. The guide is an excellent resource for an NCO, covering training, military justice, promotions, benefits, counseling soldiers, physical fitness, regulations, and other things every NCO needs to know.

Jayhawk! The VII Corps in the Persian Gulf War is a highly readable account of the involvement of Lt. Gen. Frederick M. Franks's command in Operation DESERT SHIELD/DESERT STORM. The arrival of Jayhawk-the historic nickname for corps having the number seven-with its armor heavy forces gave the coalition the offensive option to drive the Iraqi Army out of Kuwait, but the rapid conclusion of the popularly known 100-Hour War with smart bombs, precision-guided weapons, and efficient electronics fostered what Stephen A. Bourque calls the illusion of a simple, almost push-button, operation with a preordained outcome. Arguing that the endeavor was anything but simple, Bourque tells the full story of the VII Corps from its deployment to Saudi Arabia, through its phases of preparation and its offensive against the Iraqi Army, to finally its return to Europe and the United States, in the process bringing alive the scale and complexities involved in assembling, moving, and controlling men and materiel. Bourque's volume captures valuable combat lessons, especially the singular performance of General Franks and the effectiveness of the U.S. Army's technology, training, leadership, and warfighting doctrine. It is a must-read for all soldiers.
