The calendar was entitled Hayom Yom... & ;. In describing this work, Rabbi Yosef Yitzchak wrote:& ;... "A book that is small in format"... "A splendid palace of Chasidism." & ; True to these words, Hayom Yom...has become a beloved, classic work and a source of daily spiritual sustenance and inspiration.

The Happy Student is written by a student for students. Daniel Wong doesn't have a PhD in education or psychology, but his transformation from unhappy overachiever to happy straight-A student has given him unique insight into what motivates students intrinsically. By sharing with readers his personal story and the five-step program he has developed, unmotivated students everywhere will understand how they, too, can find deep satisfaction in the pursuit of academic success.

In this collection of postcards, the clever and comical waddler, Opus, and his friends take you to places where you can't help but smile.

Enigmatic American Don Nichols, D-Day paratrooper, Army counter-intelligence officer and controversial entrepreneur, went on to create a racing marque that seems as cloaked as the man himself. Shadow was the only US-based team to win a Can-Am championship, and one of only three to score a victory in Formula 1. Yet history lavishly celebrates his nominal rivals Dan Gurney and Roger Penske, while Nichols has long remained, yes, a shadowy figure -- despite staying the difficult international course far longer, for 11 racing seasons, 1970 to 1980. But at last Pete Lyons, who was there in the day, lifts the veil from this secretive man and the innovative, extraordinary, magnificent racing cars and world-class team he created.

Unrestricted cars, outrageous designs, monster engines, and very high speeds were all hallmarks of the Can-Am sports car series races. Professional teams the likes of Chaparral, McLaren and Shadow, and top drivers Andretti, Foyt, Jones, Hulme and Surtees provided Can-Am racing the attention it deserved. This well-written, pictorial history recounts the series' story through the races, designs, engineering, personalities, and cars from 1966-74. "The definitive work on the best race series that ever was..."AutoWeek. Winner of the 1996 Moto Award Bronze Medallion.

The last edition of an automotive literary classic: the technical analysis of Formula 1 penned by Giorgio Piola. After 25 years of publication, the historic draughtsman is bringing the curtain down on this experience with a volume that examines the last three seasons, from 2016 to 2018, as always reviewing the principal technical innovations in the spheres of chassis and engine design. This three-year analysis is appropriately completed with a retrospective of some of Piola ' s most important drawings from a 50-year career that began back in 1969. Formula 1 Technical Analysis is the only book of its kind that unveils all the technical secrets - even the most carefully hidden ones - of the Formula 1 World Championship cars. Engines, chassis, brakes, tires, this is an especially rigorous analysis of the car, but also their steering wheels and suspension. An essential for real Formula 1 enthusiasts for almost 30 years, this annual , this book also reviews in its second part the main new technical developments devised by the various teams during the covered seasons. The book is illustrated by more than 500 color technical designs, created by Piola himself.

A must-have book for everyone interested in autocrossing, packed with hands-on information for racing and car prepping, lists of clubs, rules, and much more. "Watts instructs carefully and well." Road & Track. "Pick up 'Secrets of Solo Racing.'" Chris O'Donnell, Solo II National Champion, 1985, 1986, and 1989; SportsCar.
