This lab manual can be used with Saladin ' s Human Anatomy text, or it can be used independently. The illustrations are labeled; therefore, students do not need to bring their lecture texts to the lab. The lab manual can be used in either a one-term or a full-year course. The illustrations are outstanding, and the balanced combination of line art and photographs provides effective coverage of the material. The amount of lecture material in the manual is limited, so there is little material included that is not part of the laboratory experience.

semester A&P textbook. This full-color manual is designed for students with minimal backgrounds in science who are pursuing careers in allied health fields. It includes 25 exercises that support most areas covered in a one-semester A&P course, allowing instructors the flexibility to choose those exercises best suited to meet their particular instructional goals. Each exercise is based on established Learning Outcomes and contains hands-on activities with the essentials-level student in mind.

From the most pedagogically sound organisation to the exceptional art, to the integration of text with technology, Saladin has formed a teaching system that will both motivate and enable students to understand and appreciate the wonders of human anatomy. This distinctive text was developed to stand apart from all other anatomy texts with an approach borne out of more than 30 years of teaching, unparalleled art, and a writing style that has been acclaimed by reviewers. Designed for a one-semester college anatomy course, Saladin requires no prior knowledge of chemistry or cell biology.
