Our fossil fuel-addicted way of life in the United States is killing us. Sometimes it's obvious and jarring, as when vehicles smash into each other or slam pedestrians or cyclists. Other times it's subtler, taking the form of heart failure or a prolonged death from lung cancer due to decades of breathing in toxins in polluted air.

pernicious than ever in its assault on the American people's customs and wallets.

This book is a study in religion, culture, and social change. Taking the position that death is a cultural event, James J. Farrell examines the historical roots of contemporary American attitudes toward and practices concerning death. Middle-class Victorians tried to assuage their fear by making death appear natural, painless, predictable, beautiful, and ultimately inconspicuous. Scientific naturalism was a crucial catalyst of this transformation. Naturalists redefined

death, the medical profession called for the establishment of rural cemeteries, and the sanitary science movement influenced embalming methods and funeral practices. The main part of this work describes and analyzes the convergence of the intellectual and social trends that changed American beliefs and behavior concerning death. The penultimate chapter focuses on Vermilion County, and the development of funeral practices in that specific place. The author uses local sources to add an empirical dimension to the intellectual history that characterizes the rest of the book. -- From
