'If you see the Black Banners coming from Khurasan, join that army, even if you have to crawl over ice; no power will be able to stop them' Hadith attributed to the Prophet Muhammad The Black Banners is the ultimate insider's account of the realities of counter-terrorism. During a decade on the front lines, as the FBI's lead investigator into Al Qaeda, Ali Soufan thwarted plots around the world and won some of the most important confessions from terrorists - without laying so much as a hand on them. Most of these stories have never been reported before, and never by anyone with such intimate firsthand knowledge. Soufan takes us into the interrogation rooms, into the hideouts. He even gives us a ringside seat at bin Laden's personal celebration of the 9/11 bombings. This is a gripping blow-by-blow account of the ten-year hunt for the most dangerous and well-connected Islamist terrorists - some of whom are still at large. In The Black Banners Soufan also explains why the pervasive use of torture is not helping in the 'War on Terror', and how a more enlightened approach to intelligence is not only possible, but essential. This is a story not just of intrigue and bravery, but of empathy. He shows us how terrorists think and operate. And he shows that through this understanding,

"Anyone who wants to understand the world we live in now should read this book." —Lawrence Wright To eliminate the scourge of terrorism, we must first know who the enemy actually is, and what his motivations are. In *Anatomy of Terror*, former FBI special agent and New York Times best-selling author Ali Soufan dissects Osama bin Laden's brand of jihadi terrorism and its major offshoots, revealing how these organizations were formed, how they operate, their strengths, and—crucially—their weaknesses. This riveting account examines the new Islamic radicalism through the stories of its flag-bearers, including a U.S. Air Force colonel who once served Saddam Hussein, a provincial bookworm who declared himself caliph of all Muslims, and bin Laden's own beloved son Hamza, a prime candidate to lead the organization his late father founded. *Anatomy of Terror* lays bare the psychology and inner workings of al-Qaeda, the Islamic State, and their spawn, and shows how the spread of terror can be stopped. When we reach out to the first bright light of the morning sun and stretch our arms to embrace it, we will experience immense joy. We just need to stretch our arms, and to welcome it within every cell and our being with love and enthusiasm. We will need to let go of all the inhibitions and let loose of

all restrictions. The more we practice doing this, the closer we get to believe that the whole universe resides in us, in you." You are not a drop in an ocean but the entire ocean in a drop." Happiness is not an achievement; it is a realization. It is not a destination; we sense it throughout our journey. Happiness doesn't depend on what we have or what we don't have, it depends on what we are deep within us. When we stop constantly fighting back with what we are, when we realize that we are imperfectly the most perfect human ever created in the history of mankind. We realize our uniqueness. We can never make or produce happiness; we can only discover it because it has always been there around us and in our totality. Pure bliss has never happened to anyone through achievements, it happens when we drop the very idea of running behind, even running behind happiness and then we realize that we are complete and total, exactly as we are. This is how I write my bliss in black and white..
