Drawing widely on previously unpublished royal letters and diaries, made public for the first time by Queen Elizabeth II, Catrine Clay chronicles the riveting half century of the royals' overlapping lives, and their slow, inexorable march into conflict. They met frequently from childhood, on holidays, and at weddings, birthdays, and each others' coronations. They saw themselves as royal colleagues, a trade union of kings, standing shoulder to shoulder against the rise of socialism,

republicanism, and revolution. And yet tensions abounded between them. Clay deftly reveals how intimate family details had deep historical significance: the antipathy Willy's mother (Victoria's daughter) felt toward him because of his withered left arm, and how it affected him throughout his life; the family tension caused by Otto von Bismarck's annexation of Schleswig and Holstein from Denmark (Georgie's and Nicky's mothers were Danish princesses); the surreality surrounding the impending conflict. "Have I gone mad?" Nicholas asked his wife, Alexandra, in July 1914, showing her another telegram from Wilhelm. "What on earth does Willy mean pretending that it still depends on me whether war is averted or not?" Germany had, in fact, declared war on Russia six hours earlier. At every point in her remarkable book, Catrine Clay sheds new light on a watershed period in world history.
