Tom of Finland: His Life and Times (Stonewall Inn Editions) ...

Really good, in depth but readable, (if somewhat worshipful) biography of the artist. I've known about Tom for some time and like his art (also,I'm straight woman writing this), but really got more interest since I'm involved in the BDSM community and go to IML (International Mr. Leather) in Chicago for the Leather Market, and the Tom of Finland Foundation usually has a booth there.

3. The Stonewall Inn is a bar, a community gathering place and a LGBTQ treasure. Did you also know it ' s a National Monument? Its legend is widely known. In the early hours of June 28, 1969, all hell broke loose when queer patrons fought back against a police raid and incited a riot that turned violent.

Paperback edition of this groundbreaking study of,the art of Touko Laaksonen (1920-1991), better,known as Tom of Finland, in which Micha Ramakers,explores the incredible and defining impact he has,had upon gay culture. A lively and entertaining,work encompassing the rise of the gay movement,the world of fine art and the functioning of.pornography, this is an ideal work for the,millions of Tom's fans throughout the world and of,interest to readers unfamiliar with his work,,illustrated in b/w throughout.

When the definitive history of hte emergence of gay culture in the second half of the twentieth century is written, one individual artist is almost certain to be acknowledged for having singlehandedly shaped the erotic imaginations of generations of gay men: hte Scandinavian illustrator Tom of Finland. Working alone and in secret in a far-off land, the remarkable drawings that sprang from this artist's hands-leatherman-bikers, cowboys, cops, lumberjacks, hardhats, soldiers, and sailors -- become archetypal images that delineated the shape of homoerotic desire. With Tom's full cooperation in the years before his death, F. Valentine Hooven III hs written a full biography of the man, while tracing the evolution and impact of his art on the world.

In 1951, a new type of publication appeared on newsstands—the physique magazine produced by and for gay men. For many men growing up in the 1950s and 1960s, these magazines and their images and illustrations of nearly naked men, as well as articles, letters from readers, and advertisements, served as an initiation into gay culture. The publishers behind them were part of a wider world of “ physique entrepreneurs ”: men as well as women who ran photography studios, mail-order catalogs, pen-pal services, book clubs, and niche advertising for gay audiences. Such businesses have often been seen as peripheral to the gay political movement. In this book, David K. Johnson shows how gay commerce was not a byproduct but rather an important catalyst for the gay rights movement. Offering a vivid look into the lives of physique entrepreneurs and their customers, and presenting a wealth of illustrations, *Buying Gay* explores the connections—and tensions—between the market and the movement. With circulation rates many times higher than the openly political “ homophile ” magazines, physique magazines were the largest gay media outlets of their time. This network of producers and consumers helped foster a gay community and upend censorship laws, paving the way for open expression. Physique entrepreneurs were at the center of legal struggles, especially against the U.S. Post Office, including the court victory that allowed full-frontal male nudity and open homoeroticism. *Buying Gay* reconceives the history of the gay rights movement and shows how consumer culture helped create community and a site for resistance.

"Bullied to Death, It almost happened to me" touches on the perilous years that lead from childhood to maturity, for gay people, for gay people who are relentlessly and mercilessly bullied...simply because of who and what they are, for what they did not choose to be.It is sad I think that in the 21st century a book such as this one was needed. I have come to call homophobia the final prejudice.I have been told that a book like this may help to save lives. If it helps to save one life, to prevent another gay suicide then I have accomplished part of what I have set out to do.I am hoping also that this book will open the eyes and ears of parents of gay children, teachers who have gay students in their classes and guidance counselors as well, as this book promotes good mental health for gay teenagers and gay people in the workplace as well.Increased self-awareness and the fact that people are connected and whether we are gay or straight, we share common ground. This book puts to rest the myth that being gay is bad and something that a person, when they realize they are gay contemplates suicide. There is a brotherhood of support out there for us, gay diversity exists within a diverse society, and this book proves that there are many aspects to us and who we are.Masculinity and femininity are defined by our culture and by society, but we are just as masculine and feminine in our own ways no matter what society deems or tries to bully us into believing. Being gay is just one very important aspect of what makes us who we are. The bully has just as many deficits, if not more, which is what causes them to become bullies. Inwardly they do not know how to define themselves...

Written with uncanny precision and wild humor, this is the story of Billy Connors, high school student in the Bronx, member of the swim team, and all-around regular guy, who in his sixteenth year has to face the fact that he's a little different from everyone else, a little "weird." Though he's sort of going steady with a girl and popular at school, he's always worried that the secret fantasies he has about men would set him apart and make him "different" if anyone knew about them. How Billy faces up to himself-and his friends-as he discovers the complexities of life, the exuberance of sex, and what it means to be an adult in our imperfect world, makes for a touching, wise, and very moving novel.

Surveys the portrayal of the male body throughout the past 150 years, exploring the works of such artists as Thomas Eakins, Robert Mapplethorpe, and Flix Gonzalez-Torres, exploring each artist's contribution in terms of their artistic themes and cultural contexts. 15,000 first printing.

Take a revealing look at gay sex and gay history—and the man who helped kick-start gay activism in today ’ s society The Mattachine is the origin of the contemporary American gay movement. One of the major players in this movement was Hal Call, America ’ s first openly gay journalist and the man most responsible for the end of government censorship of frontal male nude photography through the mail. Behind the Mask of the Mattachine: The Early Movement for Homosexual Emancipation, the Hal Call Chronicles travels back to the times before Stonewall and its aftermath, to the beginnings of the modern homosexual movement and the lesser-known individuals who started it. This stunning chronicle boldly goes beyond the standard whitewashed/desexualized history usually provided by other gay historians, to give the unexpurgated—and sexually charged—history of the activists who organized homosexuals, using the biography of the controversial Hal Call as its springboard. Behind the Mask of the Mattachine provides a revealing illustration of gay life and gay sex in the past through an intergenerational history of the early gay men ’ s movement. Noted author James T. Sears generously weaves oral history, seldom seen historical documents, and rare photographs to provide a rich behind-the-scenes look at the first wave of Mattachine activists and the emerging gay pornography industry. This historical chronicle of a previously neglected era is packed with details of Call ’ s personal struggles, his celebration of the phallus, and his assertion linking homophobia and heteronormativity to our culture ’ s sex-negative tradition. The reader is transported to the sexual underworld of youthful hustlers, porno kinggins, spurned lovers, sex clubs, cruising grounds, secretive societies, and personal in-fighting over the direction of gay activism. This enthralling narrative is impeccably referenced. Behind the Mask of the Mattachine examines: the origins of the Mattachine Society the Mattachine Foundation of Harry Hay and others of the “ Fifth Order ” the Weimar Republic in Germany—the roots of the modern homosexual movement networking of homosexuals through correspondence clubs and speakasies in Depression-era America the intense rivalries between San Francisco and New York City Mattachine groups censorship of books, magazines, and films much more! The book explores the lives of three generations of pre-Stonewall gay activists: Magnus Hirschfeld and Benedikt Friedl ånder Henry Gerber and Manual boyFrank Harry Hay and Hal Call Behind the Mask of the Mattachine is not only candid about gay sex and its impact on society but also puts a needed spotlight on a time in lesser-known gay history. This is important, illuminating reading for historians and gay persons interested in the undeniably sexually charged history of the early gay men ’ s movement. Take a look at these other James T. Sears books on LGBT issues: Growing Up Gay in the South online at http://www.haworthpress.com/store/product.asp?sku=0502 and Gay, Lesbian, and Transgender Issues in Education online at http://www.haworthpress.com/store/product.asp?sku=5180

How did social, cultural and political events in Britain during and leading up to the 1960s shape modern British fiction? The 1960s were the “ swinging decade ”: a newly energised youth culture went hand-in-hand with new technologies, expanding educational opportunities, new social attitudes and profound political differences between the generations. This volume explores the ways in which these apparently seismic changes were reflected in British fiction of the decade. Chapters cover feminist writing that fused the personal and the political, gay, lesbian and immigrant voices and the work of visionary experimental and science fiction writers. A major critical re-evaluation of the decade, this volume covers such writers as J.G. Ballard, Anthony Burgess, A.S. Byatt, Angela Carter, John Fowles, Christopher Isherwood, Doris Lessing, Michael Moorcock and V.S. Naipaul.

The first book to address the history of the gay community and Disney, "Tinker Belles and Evil Queens" broadly examines how Disney's corporate strategies have influenced our very definitions of sexuality. 20 photos.

Taking up such issues as mainstreaming, the male gaze, and female masculinity, this book puts forward provocative readings of little explored texts and offers new insights into the contemporary representation of lesbians.
