An engaging introduction for very young children to the basic facts of life in a way that is gentle, age-appropriate and accessible. Child psychologist Dr. Jillian Roberts created the Just Enough series to help parents and caregivers approach difficult subjects with little ones. These primers offer a gentle and accessible starting point for conversations about important topics. Research shows that children are learning about sex at an increasingly young age and often from undesirable sources. The Q&A format, with questions posed in the child's voice and answers starting simply and becoming gradually more in-depth, allows the adult to guide the conversation to a natural and satisfying conclusion. Additional questions at the back of the book allow for further discussion. Where Do Babies Come From? is the first book in the Just Enough series. Other topics in the series include death, cultural diversity and separation or divorce.

Sex instruction for primary school age children, presented from a Christian point of view.

Explaining a child's beginning, is sometimes difficult and considered taboo. Written from a Christian's perspective, this book is an honest, eye opening and humorous, mother's attempt to satisfy her daughter's curiosity, of where babies come from?

Lots of questions for inquisitive young minds. The colourful illustrations, large and simple text and chunky flaps reveal the answers. The little curious one's questions about the facts of life are finally answered in a way that is both sensible and approachable for them. It tells children enough facts to satisfy their curiosity without getting into the specific details which will be learnt at an older age. The focus is on babies throughout the animal kingdom, as well as human babies and as with all the Lift-the-flap First Questions and Answers, questions are inspired by the sort of typical children's questions. Other titles in this series are Lift-the-flap First Questions and Answers How do flowers grow? and Lift-the-flap First Questions and Answers What makes it rain?

This book, the second in the newly revised Learning About Sex series for girls, will guide you in the often difficult task of introducing and explaining human sexuality. Through simple, age-appropriate text and pictures, girls ages 6 to 8 will better understand how a new baby develops and discover that each person is special and important!

A beautifully illustrated book uses simple explanations to deal with the sensitive issue of how life begins.

After learning that his parents are expecting a baby, a young boy asks several people where babies come from and gets a different answer from each before his parents have a chance to give the right answer. Includes advice on answering questions about reproduction.

Presents simple sex instruction from a Christian point of view for seven-to-nine-year-old girls through a series of stories about a girl named Alisa.

"Where do babies come from?" It's a question every child asks eventually, and Animals Mate is the simple, straightforward guide every parent needs to normalize sexual reproduction via adorable animal partners. With a modern design and beautiful illustrations, Animals Mate introduces facts about mating, including tactful discussion of the mechanics of the process, anatomical parts, and sperm and eggs. Bypass the awkwardness that often accompanies "the talk," and help your child understand sex and reproduction as the natural and wonderful process that results in the world's greatest treasure: babies!
