Governance of outlying provinces of the early and high medieval polities was never a favorite topic for either medieval chronicles or modern medievalists. The book "Governance of a Distant Province in the Middle Ages: Case Study on Upper Lusatia" by Krzysztof Fokt aims at exploring this problem in a form of an "extreme case study." The region chosen for closer analysis is Upper Lusatia, which in the tenth through twelfth century was the furthest pertinence of German kings in the Slavic world and for some time also a distant province of other polities: Poland and Bohemia. The study has been based upon both written and material (archeological and numismatic) evidence, and tries to write some passages of the history of the chosen region anew, without applying the stereotypes present in the three national historiographies engaged (the German, the Czech and the Polish). The main objectives of the book are to identify and comment on the means that were used to effectively govern a distant province and to recognize the factors which influenced the strategies applied by particular monarchs and territorial rulers. Substantial part of the work is also a detailed analysis of the infrastructure of governance, based upon written and material evidence from the eastern part Upper Lusatia (at present divided between Poland and Germany). Preparation and publication of this book was financially supported by the Faculty of Law and Administration of the Jagiellonian University. Publication of this book was subsidized by the Ministry of Science and Higher Education of the Republic of Poland through the National Program for Development of Humanities (NPRH) in the years 2016-2017.

Wilhelm Herzberg ' s novel Jewish Family Papers, which was first published under a pseudonym in 1868, was one of the bestselling German-Jewish books of the nineteenth century. Its numerous editions, reviews, and translations – into Dutch, English, and Hebrew – are ample proof of its impact. Herzberg ' s Jewish Family Papers picks up on some of the most central contemporary philosophical, religious, and social debates and discusses aspects such as emancipation, antisemitism, Jewishness and Judaism, nationalism, and the Christian religion and culture, as well as gender roles. So far, however, the novel has not received the scholarly attention it so assuredly deserves. This bilingual volume is the first attempt to acknowledge how this outstanding source can contribute to our understanding of German-Jewish literature and culture in the nineteenth century and beyond. Through interdisciplinary readings, it will discuss this forgotten bestseller, embedding it within various contemporary discourses: religion, literature, emancipation, nationalism, culture, transnationalism, gender, theology, and philosophy.

This monumental collection of 165 letters was acquired or reproduced in Europe before World War II. Fully edited, the letters between Tieck and his associates as well as between Ludwig and Sophie Tieck are an indispensable source of information on the author himself and the intellectual milieu of German Romanticism.

Enlightenments is the first full-length study to deal with the history and development of counter-enlightenment thought from its inception in the eighteenth century right through to the present. Engaging in a critical dialogue with Isaiah Berlin ' s work, this book analyzes the concept of counter-enlightenment and some of the most important issues and problems it raises. Graeme Garrard explores the diverse forms of thought in this field, with a wide-ranging review of the principle figures of the past two hundred and fifty years, and an incisive assessment of the persuasiveness of the most common and important criticisms of the Enlightenment.

The Croatian-born Matthias Flacius Illyricus (1520–1575) was a Lutheran theologian and reformer who spent most of his adult life in the German-speaking territories of the Holy Roman Empire, playing an important role within the Evangelical churches and in the confessionalization of his day. Luka Ili? establishes that Flacius ' theology became increasingly radicalized with time and examines aspects of this process through following two parallel tracks. One trajectory focuses on the development of Flacius ' theological thought, while the other one discusses the pivotal influences and major turning points in his life, such as being exiled from different cities. Although Flacius did enjoy some measure of success and even attracted a considerable number of followers for shorter periods of time, his radicalized theology ultimately led to his public downfall and marred his legacy. Flacius ' relationships with the most important Wittenberg figures, Luther and Melanchthon, are also explored, along with the vast personal and professional networks Flacius built up in

imperial cities, all of which shaped his theological development. One of the dominant claims is that Flacius' understanding of original sin and of grace were the lynchpin for much of his opus. At the same time, the findings demonstrate that Flacius was a multifaceted individual with interest and competences in a number of different academic fields.

In 1896, Otto Wagner's "Modern Architecture" shocked the European architectural community with its impassioned plea for an end to eclecticism and for a "modern" style suited to contemporary needs and ideals, utilizing the nascent constructional technologies and materials. Through the combined forces of his polemical, pedagogical, and professional efforts, this determined, newly appointed professor at the Vienna Academy of Fine Arts emerged in the late 1890s - along with such contemporaries as Charles Rennie Mackintosh in Glasgow and Louis Sullivan in Chicago - as one of the leaders of the revolution soon to be identified as the "Modern Movement." Wagner's historic manifesto is now presented in a new English translation - the first in almost ninety years - based on the expanded 1902 text and noting emendations made to the 1896, 1898, and 1914 editions. In his introduction, Dr. Harry Mallgrave examines Wagner's tract against the backdrop of nineteenth-century theory, critically exploring the affinities of Wagner's revolutionary élan with the German eclectic debate of the 1840s, the materialistic tendencies of the 1870s and 1880s, and the emerging cultural ideology of modernity. Modern Architecture is one of those rare works in the literature of architecture that not only proclaimed the dawning of a new era, but also perspicaciously and cogently shaped the issues and the course of its development; it defined less the personal aspirations of one individual and more the

Wenn der Ermittler in einem erstmals 1937/38 erschienenen Schweizer Krimi kiffen darf und diese neue Erfahrung begeistert mit einem "cheibe suber isch es gsy" kommentiert -- dann kann nur Friedrich Glauser der Autor sein...In der "Fieberkurve" geht es nicht nur die Aufklärung zweier aktueller und eines lange vergangenen ungeklärten Todesfalles -- es geht auch um Studers Jugendtrüme, die er nun, gerade eben Großvater geworden, von einer anderen Seite sieht: Ein Teil der Handlung spielt im Maghreb, bei der Fremdenlegion. Und es geht um arme Teufel, die das Schicksal über Gebirge gebeutelt hat.Zunächst aber beginnt alles in Paris, wo Studer ein eigenartiger Geistlicher, ein "père blanc" vorgestellt wird, dem in einem Fremdenlegion-Posten vom "Hellseherkorporal" zwei Morde prophezeit worden waren. Studer lernt bald auch Marie Cleman kennen, ein "suubers Meitschi", das seine verterlichen Gefühle weckt -- aber auch sie ist in den Fall verwickelt. Und er findet heraus, dass es um viel Geld geht -- und darum, dass längst nicht alle Beteiligten das sind, das sie scheinen -- oder doch? Vieles spielt außerdem noch mit hinein, z.B. innerschweizerische Animositäten und der französische Geheimdienst -- eine etwas wirre Geschichte, zugegeben, die aber doch völlig logisch endet. Man merkt allerdings, dass der Roman erstmals in Fortsetzungen erschienen ist.

Aesthetics is no longer merely the philosophy of perception and the arts. Nelson Goodman, Arthur Danto and others have contributed to develop aesthetics from a field at the margins of philosophy to one permeating substantial areas of theoretical and practical philosophy. New approaches like

environmental and ecological aesthetics widened the understanding of the aesthetics of nature. The contributions in this volume address the most important issues in contemporary aesthetics, many of them from a Wittgensteinian perspective. The 39th International Ludwig Wittgenstein Symposium, organized by the Austrian Ludwig Wittgenstein Society, was held at Kirchberg am Wechsel, Lower Austria, from August 7th to 13th 2016 and aimed at taking an inventory of important tendencies and positions in contemporary aesthetics. The volume includes a selection of the invited papers.
