I really enjoyed Gabriel Thompson's new book Working in the Shadows: A Year of Doing the Jobs [Most:] American Won't Do. Back in 2007 I reviewed his book There's No José Here. To highlight the plight of low wage immigrant workers, he gets a job picking lettuce in Yuma, Arizona, then in a chicken factory in Russelville, Alabama, and finally a restaurant in New York City.

What is it like to do the back-breaking work of immigrants? To find out, Gabriel Thompson spent a year working alongside Latino immigrants, who initially thought he was either crazy or an undercover immigration agent. He stooped over lettuce fields in Arizona, and worked the graveyard shift at a chicken slaughterhouse in rural Alabama. He dodged taxis—not always successfully—as a bicycle delivery " boy " for an upscale Manhattan restaurant, and was fired from a flower shop by a boss who, he quickly realized, was nuts. As one coworker explained, " These jobs make you old quick. " Back spasms occasionally keep Thompson in bed, where he suffers recurring nightmares involving iceberg lettuce and chicken carcasses. Combining personal narrative with investigative reporting, Thompson shines a bright light on the underside of the American economy, exposing harsh working conditions, union busting, and lax government enforcement—while telling the stories of workers, undocumented immigrants, and desperate US citizens alike, forced to live with chronic pain in the pursuit of 8 an hour.

An award-winning journalist and the author of *There's No José Here* relates the story of his efforts to live life for a year as an undocumented immigrant laborer, a time during which he worked in scorching-hot lettuce fields, the graveyard shift at a chicken slaughterhouse and as a bicycle delivery boy in Manhattan.

In this enlightening and timely work, Pierrette Hondagneu-Sotelo highlights the voices, experiences, and views of Mexican and Central American women who care for other people's children and homes, as well as the outlooks of the women who employ them in Los Angeles. The new preface looks at the current issues facing immigrant domestic workers in a global context.

Migrant workers live in a transnational world that spans the boundaries of nation-states. Yet for undocumented workers, this world is complicated by inflexible immigration policies and the ever-present threat of enforcement. Workers labeled as "illegals" wrestle with restrictive immigration policies, evading border patrol and local police as they risk their lives to achieve economic stability for their families. For this group of workers, whose lives in the U.S. are largely defined by their tenuous legal status, the sacrifices they make to get ahead entail long periods of waiting, extended separation from family, and above all, tremendous uncertainty around a freedom that many of us take for granted—everyday mobility. In *Milking in the Shadows*, Julie Keller takes an in-depth look at a population of undocumented migrants working in the American dairy industry to understand the components of this labor system. This book offers a framework for understanding the disjuncture between the labor desired by employers and life as an undocumented worker in America today.

An expert explains how the conventional wisdom about decision making can get us into trouble—and why experience can't be replaced by rules, procedures, or analytical methods. In making decisions, when should we go with our gut and when should we try to analyze every option? When should we use our intuition and when should we rely on logic and statistics? Most of us would probably agree that for important decisions, we should follow certain guidelines—gather as much information as possible, compare the options, pin down the goals before getting started. But in practice we make some of our best decisions by adapting to circumstances rather than blindly following procedures. In *Streetlights and Shadows*, Gary Klein debunks the conventional wisdom about how to make decisions. He takes ten commonly accepted claims about decision making and shows that they are better suited for the laboratory than for life. The standard advice works well when everything is clear, but the tough decisions involve shadowy conditions of complexity and ambiguity. Gathering masses of information, for example, works if the information is accurate and complete—but that doesn't often happen in the real world. (Think about the careful risk calculations that led to the downfall of the Wall Street investment houses.) Klein offers more realistic ideas about how to make decisions in real-life settings. He provides many examples—ranging from airline pilots and weather forecasters to sports announcers and Captain Jack Aubrey in Patrick O'Brian's *Master and Commander* novels—to make his point. All these decision makers saw things that others didn't. They used their expertise to pick up cues and to discern patterns and trends. We can make better decisions, Klein tells us, if we are prepared for complexity and ambiguity and if we will stop expecting the data to tell us everything.

A moving exploration of how gay men construct their identities, fight to be themselves, and live authentically It goes without saying that even today, it ' s not easy to be gay in America. While young gay men often come out more readily, even those from the most progressive of backgrounds still struggle with the legacy of early-life stigma and a deficit of self-acceptance, which can fuel doubt, regret, and, at worst, self-loathing. And this is to say nothing of the ongoing trauma wrought by AIDS, which is all too often relegated to history. Drawing on his work as a clinical psychologist during and in the aftermath of the epidemic, Walt Odets reflects on what it means to survive and figure out a way to live in a new, uncompromising future, both for the men who endured the upheaval of those years and for the younger men who have come of age since then, at a time when an HIV epidemic is still ravaging the gay community, especially among the most marginalized.

Through moving stories—of friends and patients, and his own—Odets considers how experiences early in life launch men on trajectories aimed at futures that are not authentically theirs. He writes to help reconstruct how we think about gay life by considering everything from the misleading idea of “ the homosexual, ” to the diversity and richness of gay relationships, to the historical role of stigma and shame and the significance of youth and of aging. Crawling out from under the trauma of destructive early-life experience and the two epidemics, and into a century of shifting social values, provides an opportunity to explore possibilities rather than live with limitations imposed by others. Though it is drawn from decades of private practice, activism, and life in the gay community, Odets ’ s work achieves remarkable universality. At its core, *Out of the Shadows* is driven by his belief that it is time that we act based on who we are and not who others are or who they would want us to be. We—particularly the young—must construct our own paths through life. *Out of the Shadows* is a necessary, impassioned argument for how and why we must all take hold of our futures.

From the remarkable imagination of acclaimed artist Jim Di Bartolo and the exquisite pen of bestselling author Kiersten White comes a spellbinding story of love, mystery, and dark conspiracy, told in an alternating narrative of words and pictures. Cora and Minnie are sisters living in a small, stifling town where strange and mysterious things occur. Their mother runs the local boarding house. Their father is gone. The woman up the hill may or may not be a witch. Thomas and Charles are brothers who've been exiled to the boarding house so Thomas can tame his ways and Charles can fight an illness that is killing him with increasing speed. Their family history is one of sorrow and guilt. They think they can escape from it . . . but they can't. Arthur is also new to the boarding house. His fate is tied to that of Cora, Minnie, Thomas, and Charles. He knows what darkness circles them, but can't say why, and doesn't even know if they can be saved. Sinister forces are working in the shadows, manipulating fates and crafting conspiracies. The closer Cora, Minnie, Arthur, Thomas, and Charles get to the truth, the closer they get to harm. But the threat is much bigger than they can see. It is strangling the world. Until one of the boys decides he wants to save it. Told in an astonishing mix of art and words, *IN THE SHADOWS* collides past against future, love against evil, and hope against fear. The result is both a mystery and a masterpiece.
