Learning Chinese
can be frustrating
and difficult, partly
because it's very
different from

languages.

Following a teacher, textbook or language course is not enough. They show you the characters, words and grammar you need to become proficient in Chinese, but they don't teach you how to learn them!

Access Free Writing Chinese

Regardless of what program you're in (if any), you need to take responsibility for your own learning. If you don't, you will miss many important things that aren't included in the course you're taking. If you study on your own, you need to be even

Access Free Writing Chinese With Ease

more aware of what you need to do, what you're doing at the moment and the difference between them. Here are some of the questions I have asked and have since been asked many times by students: How do I learn characters efficiently? How do

answers I've found
to these questions
and many others
form the core of
this book. It took
eight years of

to figure these

you won't learn
Chinese just by
reading this book.
It's like when
someone on TV
teaches you how to
cook: you won't get
to eat the delicious

watching the
program; you have
to do the cooking
yourself. That's

true for this book as well. When you apply what you learn, it will boost your learning, making every hour you spend count for more, but you still have to do the learning yourself. This is what a few readers have said about the book:

"The book had me
