Right from its formal introduction in India in 1835, through Thomas B. Macaulay's Minute, English has been intrinsically linked with the employment prospects of Indians. During their regime, the British promoted English education to fulfil the requirement of English-knowing Indians for administrative purposes. Owing to globalization, the last few years have witnessed the opening up of thousands of lucrative job opportunities for graduates proficient in English. English has gained importance in India as the language of opportunities. In colonial India, English education was a passport to government jobs, while in the twenty-first century, proficiency in English is essential for private sector jobs. This book examines the development of curricula in English in Indian universities vis-a-vis the needs of second language learners studying in Special English programmes of Bachelor of Arts (BA). It also reflects on how globalization has strengthened the connection between English and employment.

Every year, the World Bank's World Development Report (WDR) features a topic of central importance to global development. The 2018 WDR—LEARNING to Realize Education's Promise—is the first ever devoted entirely to education. And the time is right: education has long been critical to human welfare, but it is even more so in a time of rapid economic and social change. The best way to equip children and youth for the future is to make their learning the center of all efforts to promote education. The 2018 WDR explores four main themes: First, education's promise: education is a powerful instrument for eradicating poverty and promoting shared prosperity, but fulfilling its potential requires better policies—both within and outside the education system. Second, the need to shine a light on learning: despite gains in access to education, recent learning assessments reveal that many young people around the world, especially those who are poor or marginalized, are leaving school unequipped with even the foundational skills they need for life. At the same time, internationally comparable learning assessments show that skills in many middle-income countries lag far behind what those countries aspire to. And too often these shortcomings are hidden—so as a first step to tackling this learning crisis, it is essential to shine a light on it by assessing student learning better. Third, how to make schools work for all learners: research on areas such as brain science, pedagogical innovations, and school management has identified interventions that promote learning by ensuring that learners are prepared, teachers are both skilled and motivated, and other inputs support the teacher-learner relationship. Fourth, how to make systems work for learning: achieving learning throughout an education system requires more than just scaling up effective interventions. Countries must also overcome technical and political barriers by deploying salient metrics for mobilizing actors and tracking progress, building coalitions for learning, and taking an adaptive approach to reform.

With globalization, English has become an economic necessity and Indians have realized that they have the 'English advantage' over many other countries like China and Japan. India has shed its colonial complexes towards English and has come to terms with the language; Indians have separated the English language from the English. The Story of English in India presents historical facts in a socio-cultural framework. The book is a must for all teachers and students of English; it will be useful for all those interested in the politics of language and education in India. Key issues discussed: - Are we indebted to the British for introducing English in India? - What was the role of English during India's struggle for freedom? - Has English united India? - Has English divided India into two - the English knowing classes who govern and the non-English knowing masses who are governed? - Will English ever become an Indian tongue spoken in the great Indian language bazaar? - What will be the future of major Indian languages in the wake of the English onslaught? Will it end in linguistic imperialism and cultural colonialism?

Sharad Pawar is one of India's key public figures. Through his five- decade-long career, during which he has never lost an election, he has served as chief minister of Maharashtra four times and as India's defence minister and minister for agriculture. On two occasions he came close to becoming the country's prime minister. He has often bucked the trend, preferring policy and pragmatism over populism, and won admiration for his administrative acumen and consensual politics. Eyewitness-at the highest levels-to India's and Maharashtra's history since the 1960s, he shares in this memoir his reflections on coalition politics, the loss of democracy in the Congress Party (with which he began his political life), the state of agriculture and industry in the country, and the absolute necessity of social harmony and a liberal, inclusive ethos for India's future. As he does this, he also gives us rare information about many crises and turning points: Emergency and its impact on national and regional politics; the fall of the Chandrashekhar government in 1991; the signing of the Punjab Accord between Rajiv Gandhi and H.S. Longowal; the Babri Masjid demolition; the Mumbai bomb blasts of 1993; the devastating earthquake in Latur; the controversy over the Enron power project; and Sonia Gandhi's dramatic decision to give up the chance to occupy the country's highest office. Throughout, the narrative also contains candid and fascinating assessments of some of the biggest names in Indian politics, among them, Indira, Rajiv and Sonia Gandhi, Y.B. Chavan, Morarji Desai, Biju Patnaik, Atal Bihari Vajpayee, Chandrashekhar, P.V. Narasimha Rao, George Fernandes and Bal Thackeray. 'On My Terms' is a rich, insightful and remarkably frank memoir by one of India's most experienced and influential political leaders, and a valuable document of the country's recent political history.

Phatik Chakravorti was ringleader among the boys of the village. A new mischief got into his head. There was a heavy log lying on the mud-flat of the river waiting to be shaped into a mast for a boat. He decided that they should all work together to shift the log by main force from its place and roll it away. The owner of the log would be angry and surprised, and they would all enjoy the fun. Every one seconded the proposal, and it was carried unanimously.
